SND, SILG conduct joint area visits

Secretary of National Defense Voltaire T. Gazmin (SND) and Secretary of the Interior and Local Government Mel Senen Sarmiento (SILG) are undertaking joint area visits across the country as part of a year-end inspection to boost the morale of our troops, and to underscore the importance of the AFP and PNP’s non-partisanship in any and all forms of political activities.

The SND and SILG will reiterate the importance of the AFP and PNP’s stance to remain non-partisan and professional, especially in the forthcoming 2016 elections. They will also stress that while allowing the electoral process to run its course, our men in uniform must remain focused on their duties and mandate to the country.

The two Secretaries will also underscore the necessity of interoperability between the military and police in conducting their joint missions, in order to protect and serve our people in a better capacity.
